📍 Brgy. Espinosa, Masbate City, Masbate

## ABOUT ME

A Computer Engineering student with a background in logic design, PCB layout, and hardware prototyping, seeking an internship to further develop my technical skills in a professional engineering environment.

## EDUCATION

- 2022 - Present **BICOL UNIVERSITY POLANGUI**  
Bachelor of Science in Computer Engineering
- 2020-2022 **MASBATE NATIONAL COMPREHENSIVE HIGH SCHOOL (SHS)**  
General Academic Strand (GAS)

## TECHNICAL SKILLS/TRAITS

- **EDA & Hardware Design:** EasyEDA (PCB Design), AutoCAD 2022, Breadboarding, IC Logic Design, Troubleshooting & Component Diagnostics.
- **Systems & Hardware:** PC/Mobile Architecture, Component Diagnostics (Cisco Certified), Hardware Interfacing, and System Assembly.
- **Programming & Scripting:** Python (Beginner), C++ basics.
- **Networking & IoT:** Cisco Packet Tracer, Network Configuration (IPv4/IPv6), IoT Architecture.
- **Tools & Platforms:** Microsoft 365, Logisim/Multisim (Circuit Simulation), EasyEDA pro, Digital Multimeters.
- **Collaborative** • **Adaptable** • **Communication** • **Safety Conscious**

## PROJECTS/AWARD

### LOGIC CIRCUIT DESIGN & HARDWARE PROTOTYPING

- 1st Runner Up, Breadboarding Competition (2025): Designed and implemented a complex functional circuit utilizing various 74-series Integrated Circuits (ICs). Optimized circuit layout for signal integrity and component efficiency under competitive constraints.
- PCB Design & Schematic Capture: Developed custom PCB layouts using EasyEDA, focusing on schematic accuracy, component footprint assignment, and efficient trace routing for hardware projects.
- Computer-Aided Design (AutoCAD): Utilized AutoCAD 2022 for technical drafting and engineering visualizations, ensuring precise specifications for hardware components.
